

# Midwest Dairy School – Myth Busters

November 23 or 24, 2009

Location:  
Manchester or Calmar

Co-sponsor:  
The Dairy Foundation

[www.nicc.edu/continuinged](http://www.nicc.edu/continuinged)

Proper handling and administration of vaccines, along with customized, written vaccination protocols are essential to provide maximum disease protection in successful dairy operations. **Are you adequately protected?** Because of the importance of this topic, Northeast Iowa Community College and The Northeast Iowa Community Based Dairy Foundation will be offering the Midwest Dairy School–Myth Busters in two different locations.

Date: Monday, November 23, 2009  
Course #: 0029620  
Time: Noon - 5 p.m.  
Location: Manchester Livestock Auction, Manchester, Iowa

OR

Date: Tuesday, November 24, 2009  
Course #: 0029622  
Time: 9:30 a.m. - 3 p.m.  
Location: Room 115, Dairy Center, Calmar, Iowa

- Review the common myths associated with vaccines and vaccine protocols.
- Learn the five possible USDA levels of protection that can be granted and the difference between each level.
- Review proper handling and proper injection technique.
- Where to find the level of protection for a particular vaccine.
- Learn the concept of vaccine 'stacking' and how to work around it.

**The effectiveness of the Midwest Dairy School – Myth Busters is enhanced with live animal demonstrations at both sites.**

Presenters:

Dr. Vic Cortese, DVM. PhD. Dipl. ABVP, Director of Cattle Veterinary Operation – Cattle Immunology for Pfizer Animal Health, Adjunct professor with University of Wisconsin College of Veterinary Medicine

Dr. Chris Harvey, DVM., Northeast Iowa Community College Dairy Science faculty

Dr. Gary Neubauer, DVM., Minnesota's Veterinarian of the year in 2001, Dairy Veterinarian Operations Pfizer Animal Health
